

Lesson Learned Seminar

Winter Semester 2023/24

Tuesdays, 2-4 pm, CET, (3.12, Prieserstraße 2, under reserve)

Objectives:

- Students are oriented on the master's program (course structure, milestones, deliverables, sources of information)
- Students hear from their peer on experiences and lessons learned (3rd semester students share their insights)
- Students receive an orientation on potential international career paths in the field of Planetary Health (internship and employment opportunities)
